

Dear Employer,

On August 3, 2020, the President signed into law the Protecting Nonprofits Act. The Protecting Nonprofits Act eliminates the requirement that reimbursing employers must first pay the amount due in lieu of contributions in order to obtain 50% emergency relief for charges from Claim Week ending 3/21/20 through 12/26/20. States must now use the federal funds provided exclusively to reduce the amount required to be paid on an employer's Monthly Billing Statement.

As such, we will apply the 50% credit reduction directly to your Monthly Billing Statement. The previous months and current month's adjustments are reflected in the enclosed Billing Statement. These adjustments appear on page two and are noted as 'CODE 12' adjustments.

Sincerely,

**Connecticut Department of Labor
Employer Tax Accounting Unit**
